ON THE NERVES"

Many who suffer from backache and weak kidneys are unnaturally irritable, fretful and nervous. Not only does constant backache "get on the nerves," but bad kidneys fail to eliminate all the uric acid from the system, and uric acid irritates the nerves, keeping you "on edge" and causing rheumatic, neuralgic pains. Doan's Kidney Pills cure these ills by curing the kidneys. Here's proof:

CONVINCING TESTIMONY

Mrs. M. H. Toss, Center Main St., Ward-
ner, Idaho, says: "My back pains me all
the time and every

aches and my eyes
are sore. I have
tried all kinds of
drugs and I have
not found any relief.

taken them and I
feel better than I
have felt for a long
time. I can now
do my work and I
am happy. I can
now sleep at night
and I am well."

The Irish-Americans were green neckties and button-hole bouquets yesterday. The man who does not take one day in the year to love his native land will never make a good American citizen. Here's hoping that another decade will see Ireland free.

A. H. Emanuel received a telegram from Judge Sloan today telling him to adjourn court to March 30th.

Shaw, who was committed to jail from Bisbee a few weeks since on a charge of grand larceny, was taken before Judge Wolcott yesterday on a writ of habeas corpus and set free. The case against him came from his hiring a team of E. S. Adam, of Bisbee for two days to go on a hunt. He turned up at Fairbank with the team next day, and was arrested on a warrant sworn out by Mr. Adam. The latter is not in the country now, and no possibility of a conviction could be shown.

TUESDAY

Edward Schwartz, of Phoenix is the new commander of the Arizona G. A. R.

The allowing of \$3000 to the Catholic St. Joseph society of Tucson by the legislature, may not meet with the sanction of bigots, but it is one of the most benevolent and charitable institutions in the Territory and asks no questions of its patrons regarding their belief. A Protestant or Episcopal Methodist institution of the same kind would have received the same consideration from the progressive 19.

If Gov. Irwin doubts the need of immediate action he has but to consult his attorney general, who is posted upon the Indian difficulties in this section as well as any person in the territory.

Cochise county has \$1200 to show anyway. That was the amount that was refunded by an act of the legislature. We would suggest that Treasurer McAllister examine it thoroughly when he gets it as the territory will poke off old confederate bills on us if it can.

THURSDAY

A Durward is confined to his home with a broken ankle. While driving up from Fairbank on Saturday his team of sixteen mules became entangled in the chain and while straightening them out, he stumbled and one of the mules stepped on his ankle breaking the bone and lacerating his foot. He was un-

able to get up until R. Hill, who lives near where the accident occurred, came to his assistance. He was brought to town and under Mrs. Duward's watchful care will soon be around again.

Capt. Doane, with a troop of cavalry camped at Solomonville last week, on their way to San Carlos. Some of them filled up on Solomonville booze and Sheriff Olney informed the captain that there was a law against carrying weapons in town and that he would be obliged to disarm them. GOOD ROADS MEETING IN
BENSON THURSDAY

A meeting of the Benson division of the Arizona Good Roads Association was held on Thursday night at the Gem Theater. Several matters of importance came up for discussion, the first concerning the getting in touch with the local organizations at Tombstone, Bisbee, Douglas, and Tucson. It was proposed and agreed upon to send a delegation of four or five to visit these places with a view of securing unity of action in general and more especially to secure their co-operation in routing transcontinental travel by way of Benson. Final action on the selection of this delegation was deferred until the meeting next Thursday night, when it is desired and expected that a larger attendance will be present—Benson Signal.

WATER IN CHECK
AT O. D. MINE

GLOBE, March 21.—Water that has been flooding the Old Dominion mine for some time is being held in check, according to a statement made last night by General Manager P. G. Beckett.

Mr. Beckett said that for forty-eight hours the flood had been held on the 12th level and that it was not being allowed to overflow to the lower levels. The general situation is showing a distinct improvement, he declared, and expressed himself as greatly encouraged.

It has been known from the first that the situation at the O. D. was only temporary, the high water being caused by seepage as the mine lies in a basin which drains the entire district. News that the situation is in hand, however is very encouraging and will cause general relief of anxiety throughout the district.

He is well qualified for the office, as is also H. P. Johnson, who was announced for the place by his friends, although it is known that he is not making an exceedingly strong race for the office. Mr. Fowler's friends are boosting him for the position, but so far he has not committed himself. However, his boosters say he must accept, and the "Prospector" takes it for granted there will be a lively race for the trusteeship, no doubt.

UNPRECEDENTED
RISE IN COPPER

An unprecedented rise in copper railroad and industrial stocks during the past two days, following the increase in the price of Lake copper to 16 cents and Electrolytic to 15 1/4 cents, in both listed and curl stocks, is demanding the close attention of all investors.

Answers from inquiries to the east offer no other answer than "a general tone of optimism, together with the increase in the price of copper," which is reflected all along the line.

Among the leading stocks which participated heavily in the upward move were United States Steel, Calumet and Arizona, Greene-Canaan, Amalgamated Copper, and Union Pacific.

Stage Horse Dead

"Dewey," the notorious old Modoc stage horse is no more. For some time past, night he breathed his last, due to poisoning from eating a "campamocha." He had been, for the past score of years, the property of Frank Platz, the well known old Tombstone stage driver, who used to pilot the old Modoc, the historic stage coach, with a history full of adventures; and it was at the wheel of this stage coach "Dewey" worked faithfully for many years. Since the railroad and more modern conveniences have come into use, "Dewey" has been put to other work. He was an old horse, but was still among the huskies of his kind. He will be dragged away to burial this afternoon, and his eventful career will have been ended. He was possibly the lone survivor of the many horses that have, in the early days, done service on the Modoc, and his passing adds another link to the chain of history of the early pioneer days.
